

## Business + Plan

Business + adds more analytic capabilities and environmental control for those with more complex workflows, multiple locations, and need to securely manage internal and external legal teams. Business + brings the full set of analytic and AI capabilities with the ability for full administration and system management, required to manage larger teams.

**IPRO is reinventing the way organizations interact with their data.**

By transforming the EDRM and thinking "upstream" we bring insight far earlier in the eDiscovery process, enabling teams inside and outside your organization to collaborate transparently at any stage, before data is even collected. By thinking about and interacting with your data differently, you'll eliminate waste and reduce risk.
